

# District Elections

The District Elections data-table holds data for elections at the District level within KKFU. It is a **linking data-table** which links any District in the KKFU database to series of Farmer records.

The District Elections data-table includes data-fields to record the people who have been elected in KKFU Society District Elections. It includes the Position to which they were elected (ie "President", "Treasurer" etc.). This data-table can be used to return reports of the current or past committee members for all of KKFU's Districts.

It can also be used to find things like the phone numbers and contact information for all the Presidents or Secretaries of at the District level provided that the data is kept up-to-date.

A full listing of **all** the fields in the data-table with their purposes and any automation built into the App is laid out below. To fully understand the purpose of the data-fields please consult this.

**NOTE: The DistrictElections entity was added to KKSys in around 2014, but because IT staff employed at the time left the company it has never been used. It is still available and can start to be used at any time.**

## How and where to access District Elections data

The image below shows the "DistrictElections" Edit Form. This is accessed via its own entry in the System Entities screen. Records in this tables are **children** of the **Regions** entity.

The screenshot shows a software interface for editing a record in the 'DistrictElections' table. The window title is 'Data for: 2014-07-16 Ashanti Bekwai'. The form is titled 'DistrictElections: data ID: 1,010,078'. It contains several fields, each with a 'View' button and a dropdown menu:

- DateDone: 16/07/2014
- DistrictsID: View Ashanti Bekwai (Co-op)
- VoterCount: 0
- PresidentID: View MR. KOBI (AS4-06-11-104)
- VicePresidentID: View ABENA KWABENA (AS4-06-34-044)
- SecretaryID: View YAW YEBOAH (AS4-06-57-087)
- TreasurerID: View KINGSLEY BONIAMOAH (AS4-06-58-1)
- ExecMember1ID: View
- ExecMember2ID: View
- ExecMember3ID: View
- OverseeingOfficerID: View Alexander Tano Appiah
- DateCreated: 16/07/2014 13:25:19
- Current:

DistrictElections edit form
